

MicroSaver® Micro DS Keyed Ultrabook Locks - Custom Master Access - Master Keyed

High security goes low profile.

K64605M

Product Description

The Kensington MicroSaver® DS Keyed Ultra-Thin Laptop Lock is designed for the ultimate defence of even the thinnest laptop. The nearly impenetrable disk style keyed locking mechanism along with an advanced cable design provides greater security. And with the rotating, slim lock head and a pivoting cable you can be sure it'll attach easily without getting in the way.

Features

- Anti-Shear™ technology protects against intrusion by force
- Multi-stranded 1500mm long, 4mm thick high-carbon aircraft-grade steel cable with carbon tempered steel core
- Master Keyed locks allow you to equip employees with their own personal locks - all while retaining universal access for your IT staff
- Custom keyed options available
- Advanced, nearly impenetrable disc-lock technology
- 3 layers of cable strength: carbon tempered steel core, aircraft-grade steel cable, external steel braided sheath
- T-Bar™ lock head
- Online key code Register & Retrieve™ and replacement service
- A rotating head and pivoting cable allow you to easily connect to your laptop and position the lock
